INFINITY
A Constellation Financial Software Company

Elevate your business with an end-to-end asset finance software solution

Comprehensive & configurable

- Automated portfolio management, advanced integration
- Configurable document templates
- CRM, syndication, documentation, funding & booking

Front and back office solution with capability to handle back office functions only; ability to customize to work with your existing systems.

Flexible & scalable

- MS office/outlook integration
- Configuration flexibility
- ASP / License options

Multiple options: deploy as stand-alone back end software, combine with our origination platform, or integrate with your existing package.

Innovative & user-friendly

- Broker/vendor workflows
- Fast credit decisions
- Web-based customer self-service portal option

Manual process reduction through automation; streamline operational processes; capture and manage new lines of business.
